Multipurpose Airlines is proud of the fact that it is the only commercial airline with an entire fleet of handmade aircraft.

Multipurpose Airlines supplies luxury domestic travel in India.

In January this year, a Multipurpose Airline aeroplane set off on a journey from Bangalore to London. The intention was to expand the business and open headquarters in Britain. This aeroplane was Multipurpose Airlines' classic third edition aircraft, MPVA mk.III. It is the aircraft you see in front of you.

The following aircraft was designed and built by Varun Arni B.Eng M.Sc and painted by Max Prus.
